## SUCKOW & FISCHER SYSTEME ASIA PACIFIC LIMITED

A latest Patents awarded innovative healthcare functional metal ceiling systems with antimicrobial coating, air-tightness, concealed grids and easy E&M access features. The systems are designed to meet stringent requirements for use in CLEAN environmental conditions like operating theatres, ICU & isolated wards of hospitals and other facilities like clinics, quarantine units, laboratories, medical device & pharmaceutical cleanrooms, elderly homes, food processing & semiconducting production area and data centers where positive or negative air pressure may apply. The ceiling system is qualified with CE mark with conformity to EN 13964-2014(E) and also tested under EN-12114-2000-03 for air-tightness. Your enquiries are welcome.
